Monday morning to go to Washington, and there present New York's claim for the National Democratic Convention, to be held in June next.

Never in the history of a National Committee meeting has such a representative body of men organized to appear and make bids for its home city.

Headed by John D. Crimmins and Robert A. Van Wyck, the former chairman of the Citizens' Committee and the latter chairman of the committee appointed by the Democratic Club, these gentlemen will make representations to the National Committee which, it is now believed, will bring the great convention to New York.

This committee has everything it can desire. The fund necessary to bring the convention to New York is pledged. It has, through The Evening World, succeeded in interesting every man in New York with proper civic pride, and it will go to Washington where was little or no business transfer in the state of the Exchange. ROUND TRIP FOR ONE FARE.

The final decision to leave New York for Washington was reached at a meeting of the Executive Committee of the Democvratic Club last night, when Robert A. Van Wyck presided. At this meeting it was made known that the Pennsylvania Railroad, through The Evening World, had made an agreement to furnish all members of the New York committee with half rates to and from Washington, making the round trip \$6.25. It was also made known that The Evening World had obtained parlor car accommodations for all committeemen who desire them-

It was decided that the 10.55 train leaving Jersey City would be the most convenient, but the Pennsylvania Raliroad offered the helf-fare tickets on all its Washington trains leaving on Monday. Mr. Van Wyck said that it would be wise for the New York delegation to leave in a body, and the 10.55 train was selected. It will arrive in Washington at 4.20 P. M., which will give the New York delegation time to begin work among the members of the National Committee.

This committee was then appointed as a part of the Citisens' Committer the to represent the Democratic Club:

Robert A. Van Wyck, chairman; John Fox, Randolph Guggenheimer, Robert B. Roosevelt, Daniel O'Day and John O'Rourke. Washington was communicated with and accommodations engaged at the Arlington Hotel, A parlor for the New York delegation was also engaged. In this parlor the Entertainment Committee of the New York delegation will hold forth, and real New York hospitality will be dispensed.

Just before the meeting adjourned Mr. Van Wyck offered a resolution thanking The Evening World for the energy and untiring efforts in organizing the Citizens' Committee to bring the con-It was decided that the 10.55 train leaving Jersey City would be the

"The Evening World's work has been of untold help. In fact it has succeeded in doing what for a time seemed impossible. I move a vote of thanks for The Evening World in the name of this club and the committee now sitting," he said.

The vote of thanks was carried unanimously.

A message was then read from ex-Gov. Levi P. Morton, who said that he was heartily in sympathy with the movement and that he would lend all his influence in bringing the convention to New York.

"I believe it will be an excellent thing for this city," he said.

Mr. Van Wyck asked The Evening World to announce the completion

All Exchanges Cut Off.

The interruption of business was not confined solely to the Stock Exchange. Wires were cut off in the Cotton, Coffee and the Produce Exchange buildings as well. Great confusion occurred on the floor of the Produce Exchange, and the rule prohibiting any one but members from going on the floor was suspended to day. The result was that hundreds of boys bearing messages from the brokers made the morning session the noisiest known to the Exchange.

Two hundred men were put at work on the conduit by the telegraph company. Two tons of copper wire welded to getter by the fire were removed. Mr. Van Wyck asked The Evening World to announce the completion of the organization.

"The Evening World has selected a very excellent body of business the co-operation of every one of them. We want every man named by The Evening World who has consented to act on this committee to come to Washington with us Monday. I want it impressed on every one of these men that his presence is needed, and is needed badly. There is not a man among the number who has not influence and whose presence will not lend course the roughly that a small fire could course the roughly that a small fire could course the roughly that this one has and mal men and representative politicians," he said. "We want among the number who has not influence and whose presence will not lend prestige to our body. Please say for me that we want them, and that they should come. If all of them do, and if our prospects continue as bright as they are now, we will get the Democratic National Convention in New York in June next.

WHAT HAS REEN DONE

WHAT HAS BEEN DONE.

"We have raised the funds necessary to make a most formidable bid for the convention. We have brought influence to bear on the National Committeemen which cannot but tell. We have shown them that New York not only deserves the convention, but that it is the only city in the country that can make all the delegates to the convention, and the hundreds of thousands of friends, relatives and followers, comfortable and happy."

While Mr. Van Wyck was busy at the Democratic Club Mr. John D Crimmins was equally busy at his office. All day yesterday he was seeing business men and acquaintances.

Some gentlemen who have influence with the National Committeemen will go to Washington Saturday and others who have joined forces with me will leave on the train Monday morning," he said. "I am more than gratified at the turn affairs have taken, and believe now that we are on the right road and am hoping that we will gain our ends.

"I am particularly pleased to co-operate with the other gentlemen in this movement. What we wanted, and what we have got, is concerted

Christopher C. Shayne, the furrier, of Nos. 124 and 126 West Fortysecond street, is another prominent business man who is interested in the movement to bring the convention to this city. Business men, Mr. Shayne declared, are not the only ones who would be benefited by the convention, but it would be a boon to the city in general.

"I believe," he said, "that it would benefit the hotels, business houses, railroads and every one in the city. The delegates who would come here riving quickly. count of the havoc the small fire had wrought.

Some two thousand wires were fused together by the heat. In the big conduit which runs from the street to the building electric lights are mixed with the telegraph wires. The high voltage which the lighting wires carried destroyed the insulation, which was defective. The fire started at this point.

Thomas Green, a messenger boy of the Western Union Telegraph Company, discovered the fire in a small room of the sub-collar. He quickly notified the other employees of the Western Union office, which is in the basement of the Stock Exchange, and then ran to a fire box at Beaver and Broad streets. It would not work, and he had to go to another at Pine and Nassau.

POLICE SETBACK IN POOL-ROOM WAR

ed that he was a member of the club and had a right to enter without police interference. He insisted on entering bailed out. That occurred at the same place twice. In the Yorkville Police Court to-day

Attorney Rosalsky, for Duke, contended that the "Bon Homme" was a regularly chartered club, that the police had no right to keep members out of the club-house, and not only insisted on the discharge of Duke, but asked for a summons to bring Capt. McDermott to court to explain why he should interfere with the members of a regularly chartered and legally recognised club.

Magistrate Barlow held that the police had exceeded theire, uthority in preventing Duke from entering the club and discharged him, but refused to call Capt. McDermott to court, telling the attorney he should take that matter up with Commissioner McAdoo.

That the discharge of Duke may place a damper on the present efforts of the police to stop the pool-rooms is the opinion of many lawyers. They say that the police must first secure definite evidence that the "Club" is a subterfuge for a pool-room and that a pool-room is being actually conducted before they can prevent "members" or other persons from entering.

On securing the evidence that the place is a pool-room, these lawyers say, it becomes the duty of the police to obtain warrants and raid it and not content themselves with the harmless practice of interfering with persons desiring to enter.

content themselves with the harmless practice of interfering with persons desiring to enter.

Detective Lemmon, of the Oid slip station, was the complainant in the Tombs Court to-day against James Brooks, whom he charged with technical assault. The police heard that a poolroom was run at No. 12 Stone streat, on the second floor. Lemnon and eleven policemen went there and crowded into the hallway, preventing egress or ingress. Brooks telephoned to former Assistant District-Attorney Daniel O'Reilly, on whose advice he placed his hand on Lennon's shoulder and was arrested on the rechnical charge of assault. Magistrate Breen discharged Brooks.

John Reilly, who was arrested while trying to enter the house at No. 16 West Forty-fourth street, which the police suspected of being a pool-room, was discharged in the West Side Police Court by Magistrate Pool to-day. The Magistrate held that the police had no right to keep a man from entering a house because the house was merely under suspicion.
